

# South and West of England U15 Cricket Team

## West Indies Tour 2010

### a memorable partnership

**James Halson** and **Jack Wood** playing for Hampshire against Lancashire 2 days before they were invited to trials for the South and West of England Team in 2007.

Two years later James and Jack have been selected to represent the **South and West of England U15 team** for their tour of the West Indies in April 2010.

The team comprises 16 boys from 10 counties in the South and West.

James and Jack have played cricket together since they were 8 years of age, first at school and club, then at County and now representing the South and West of England

## Hampshire County Cricket

James and Jack have worked hard at their cricket and this hard work was rewarded in 2007 when they were both asked to join the **Emerging Player Program** at Hampshire, this is an **ECB** initiative which enables each county to give intensive training to 8 players aged between 13 and 16. James and Jack are just starting their 3<sup>rd</sup> year in this program. The program involves travelling to the Rose Bowl twice a week, once for an individual specialist coaching session and once for a group session.

They have enjoyed success playing for the Hampshire youth teams from U10 through to U16, for the last 2 years playing in teams above their age group. They have been selected to go to South Africa with the Hampshire U16 Development Squad in February 2010.

**Jack bowls with a very effective swing action which deceives batsman**

**He contributes with the bat coming in at 3 or 4**

**James opens the batting and bowls leg spin**

## **South and West of England Cricket**

Last year James and Jack were selected to play for the **South and West of England** in a Regional tournament, unfortunately, the weather was terrible and matches against **The North** and **The Midlands** were rained off, only one match was played against **London and East England**. James, who opens the batting, put on a top score of 62 before being caught and Jack took a wicket at a crucial time in the match leading to a win for the South and West team.

Their target for this year is to play well in the West Indies and earn a place in the team for the **Bunbury Festival** next summer, where the **U15 England Squad** will be selected.
